

# MCCSP

Massachusetts Chapter of  
Central Sterile Professionals

**Spring Program**  
**Beyond prep and pack: what really happens!**

**April 29, 2017**

**6 CE's IAHCMM and CBSPD**

**6 CE's AST**

**2 CE's RN**

**Who should attend?**

- **Sterile Processing Management**
- **Sterile Processing Supervisors**
- **Sterile Processing Technicians**
- **Operating Room Nurses**
- **Surgical Technicians**
- **Infection Prevention**
- **Risk Management**

## St. John's of Damascus

300 West St, Dedham, MA 02026

Please join us on Saturday, April 29, 2017 at the Church of St. John of Damascus! We have a great educational program for this event so don't miss out! Seating will be limited. Register today! Please note if you do register for the event and are a CRCST or CBSPDT you must stay for the entire event. CEU's will not be issued to those who leave early, regardless of the situation. Spend the day and gain some knowledge!!

**Registration 7:00 am - 8:00 am**

**Opening starts promptly at 8:00 am**

## Mark Duro

### Fact or Fiction

**8:00am - 8:40 am**

- Identify appropriate temperature and humidity levels in each area of the sterile processing department.

- Understand AAMI recommendations for personnel, facility design, and quality control.
- Recognize minimum cycles times for flash sterilization in both gravity displacement and dynamic air removal sterilizers.
- Identify methods for daily efficacy testing of sterilizers.
- Describe the process for routine product testing.

### Joint Commission Audit - Are you Ready?

**8:40am - 9:20 am**

- Identify bodies that do accreditation inspection
- Identify values in manufactures instructions for use and how the JC utilizes them in surveys.
- Observe a system tray tracer and how it can affect sterile processing.
- Discuss JC areas of concern for HLD.

### Personal Protective Equipment(PPE)

**9:20 am -10:00 am**

- Identify the importance of proper attire and PPE in the health care setting,
- Explain how to don and remove various PPE,
- Discuss how to handle spills of hazardous substances.

**First Break 10:00 am - 10:15 am**

## Jo M. Wood

### When Things Fail

*Critical thinking when things don't go as planned*

**10:15 am - 11:15 am**

- Review disaster response cycle and how it can be applied to sterile processing.

## Jo M. Wood (cont'd)

- Review actual process and system failures and the thought process used when addressing them.
  - Entire sterile storage contaminated due to fire
  - House-wide loss of steam
  - Mass casualty incident and insufficient instrument inventory
  - Contaminated tap water in decontamination
- How to conduct a risk assessment when a process failure occurs (what type of information needs to be collected and taken into consideration)
- Review a sample humidity response policy that explains how to mitigate impact of a future event

## Charles Stefanini, MPA, Owner, CS Consulting, LLC

### Massachusetts Certification Legislation for Central Service Technicians

**11:15 am - 12:15 pm**

- Explain the status of certification legislation for Central Service Technicians in Massachusetts.
- Explain how a bill becomes law in Massachusetts.
- Demonstrate how members can become involved in the legislative process
- Discuss Legislative Action Alerts.
- Participants will be able to ask questions at the end of the session.

**Lunch & Vendor Fair 12:15 pm - 1:30 pm**

## Damien Berg, BA, BS, CRCST

### Low Temperature Sterilization

*(The Highs and the Lows)*

**1:30 pm - 2:30 pm**

- Discuss low temperature sterilization options available in the US

## Damien Berg, BA, BS, CRCST (cont'd)

- Share experiences with choosing a low temperature sterilization option
- Discuss competency assessment for hydrogen peroxide gas sterilization
- Discuss low temperature sterilization options available in the US
- Share experiences with choosing a low temperature sterilization option
- Discuss competency assessment for hydrogen peroxide gas sterilization

### Sterile Processing Quality Management Systems (You Can Do It)!

**2:30 pm - 3:30 pm**

- QMS (Quality Management System) Overview
- Understanding the what it looks like in your system
- How to start your program
- Quick step check list

**Certificates 3:30 pm**
